### 2. Reasons for the Amendments

The Company's shareholder return policy is targeting a dividend payout ratio at 30% of net income attributable to HORIBA Ltd.'s shareholders, while special dividend and share buybacks will be executed timely and properly, taking into account investment opportunities, cash flow situation and other factors.

The dividend forecasts for FY2024 had been 265 yen per share since the announcement of the "Summary of Consolidated Financial Statements for the Six Months Ended June 30, 2024" on August 8, 2024.

However, considering the revised consolidated earnings forecasts for FY2024, the Company has amended the forecasts for the year-end per-share dividend with a decrease of 20 yen to 165 yen and thus revised downward the annual dividend forecasts to 245 yen, including interim dividend which had already been paid.
