Light Diffraction Particle Size Distribution Analyzers
LA Series

The purpose of this form is to collect information necessary to test your samples and provide the results most appropriate to your requirements. The more information we have, the better we are able to tailor our methods and analyses - resulting in fast, accurate, and pleasing results. **Please include all information regarding sample preparation, current test methods and results, sample disposal, and MSDS per sample.**

Name of Organization :

Primary Contact Name : Job Title :

2nd Contact Name : Job Title :

Address : City : State :

E-Mail Address : Zip Code :

Telephone : Fax :

HORIBA Regional Manager : HORIBA Sales Rep :

Type of Industry (e.g. Pharmaceutical, Paint, Food) :

Application (e.g. Excipient, Pigment, Emulsion) :

Purpose of Analysis
(e.g. Instrument Evaluation, Method Development, Troubleshooting) :

Current Measurement Technique (e.g. Light Diffraction, Sieves) :

Current Measurement Instrument (e.g. HORIBA LA-910) :

Correlation/Matching Required to Current Results? :

Choose Instrument for Analysis : ☐ LA-960 Wet ☐ LA-960 Dry ☐ LA-300 ☐ Other (Enter Below)

Have you previously requested analysis? : Other

If yes, please indicate report numbers :

How were you referred to HORIBA? :

NO ANALYTICAL WORK WILL BEGIN UNTIL WE ARE AWARE OF ALL POTENTIAL HEALTH AND SAFETY HAZARDS, AND UNDERSTAND THE PURPOSE OF ANALYSIS!

Sample Information	Sample #1	Sample #2	Sample #3
ID# / Name			
Nature of sample (dry powder, suspension, emulsion, et al)			
Particulate material identity (e.g. alumina, silica, etc.)			
Refractive index of particulate (if known)			
Continuous phase / Dispersant identity			
Refractive index of dispersant (if known)			
Dispersant to be used for analysis (if known)			
Surfactant to be used for analysis (if known)			
Type of sample preparation (as-is, max de-agglomeration)			
Expected size MEDIAN (D50) (if known, in microns)			
Expected size RANGE (if known, in microns)			
Existing method and example data included with sample?			

Special Handling Instructions					
Refrigeration necessary? Hygroscopic? Time-sensitive? Light-sensitive?		☐		☐	☐
Additional stability concerns (please note)					
Procedure for sample disposal
