

QHSE Policy

HORIBA Medical shares his vision:

« Be the preferred partner in medical diagnostic solutions »

As President of HORIBA Medical, I will deploy the human, financial, organizational and technical resources required to:

MANAGEMENT

- Develop an agile organization
- Pilot at the group level the implementation of new tools for managing operations
- Capitalize and transmit knowledge
- Ensure that legal and regulatory requirements are adhered to
- Continuously improve the company
- Keep the efficiency of the quality management system QHSE

QUALITY

- Put the customers and interested parties at the center of our concerns
- Guarantee the maintainability, the reliability of our products
- Guarantee the quality of the results
- To ensure the safety of users and products

HEALTH & SAFETY

- Place prevention as a central concern of the professional risk
- Insure the health and safety of the collaborators
- Improve their working condition

ENVIRONMENT

- Control and reduce the significant environmental aspects
- Prevent potential environmental pollutions
- Increase of energy saving

ECONOMIC

- Become one of the main leaders In Vitro Diagnostic (IVD)
- Develop core competences
- Develop synergies
- Develop new fields of application

I delegate this mission to all directors and especially to the quality and regulatory affairs director and the human resources director.

I rely on the contribution of all staff to the daily improvement of our performance via the implementation of this policy.
