

SAFETY DATA SHEET

Section 1. Product and Company Identification

Product Name:	525-21; 525-22; 525-23; 525-24; 500-21; 500-22; 500-23; 500-24; 560-21; 560-22; 560-23; 560-24 (Conductivity Standards Solutions)
Product code:	3999960024; 3999960025; 3999960026; 3999960027; 3999960035; 3999960036; 3999960037; 3999960038; 3999960144; 3999960145; 3999960191; 3999960192
Recommended use:	For laboratory and Industrial use
Manufacturer / Supplier:	Horiba Instruments (Singapore) Pte Ltd 83 Science Park Drive, #02-02A, The Curie Singapore-118258 Contact No: +65 69089600

Section 2. Hazard identification

Classification of the	Mixture
Substance or Mixture:	

The mixture is classified as not hazardous according to regulation (EC) 1272/2008, Globally Harmonized System (GHS)

GHS Label elements:	
Signal word: Hazard statement:	No Signal word No Known significant effects or critical hazards
Precautionary statements: General:	Do not handle until all safety precautions have been read and understood
Other hazards which do not result in classification:	None known

Section 3. Composition/ information on ingredients

Substance or Mixture:

Mixture

CAS Numbers other identifiers:

Ingredients	CAS Number	Percentage
Potassium Chloride	7447-40-7	<8%
Water	7732-18-5	>92%

The exact percentage of composition has been withheld as a trade secret n

Chemical formula:

Not applicable

Revision Date: 7 March 2018

Section 4. First Aid Measures

Description of necessary first aid measures			
Eye contact:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove any contact lenses. Get medical attention if irritation occurs.		
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.		
Skin contact	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.		
Ingestion	Clean mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.		
Most important symptoms/effects, both acute and delayed			
Potential acute health effects: Eye contact:	Causes eye irritation		
	No known significant effects or critical hazards		
Over-exposure signs/symptoms: No specific data available			
Indication of immediate medical attention and special treatment needed, if necessary			
Notes to physician:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.		

See toxicological information (Section 11)

Section 5. Firefighting Measures	
Extinguishing Media	
Suitable extinguishing media: Unsuitable extinguishing	Use an extinguishing agent suitable for the surrounding fire.
Media:	No Information available
Specific hazards arising from the substance or mixture:	No specific information available
Hazardous thermal decomposition products:	No Specific data
Special protective actions for fire –fighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters:

Fire-fighters should wear appropriate protective equipment self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

Section 6. Accidental release Measures

Personal precautions, protective For non-emergency personnel:	equipment and emergency procedures No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material.	
For emergency responders:	If specialized clothing is required to deal with the spillage, take note	e of any information in
Revision Date: 7 March 2018	Document Number: SDS-201-WQI-002 Rev.2	Page: 2 7

	section 8 on suitable and unsuitable materials. See also the information in "For non- emergency personnel"	
Environmental precautions:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, water ways, soil and air	
Methods and material for containment and cleaning up:		
Method for Containment:	Prevent further leakage or spillage if safe to do so.	
Methods of cleaning up:	Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.	

Section 7. Handling and storage

Precautions for safe handling Protective measures:	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.
Conditions for safe storage, including any incompatibilities:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters		
Occupational exposure limits:	None	
Appropriate engineering controls:	Good general ventilation should be sufficient to control worker exposure to air contaminants.	borne
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legisla In some cases, fume scrubbers, filters or engineering modifications to the pro Equipment will be necessary to reduce emissions to acceptable levels.	
Individual protection measures Hygiene measures:	Wash hands, forearms and face thoroughly after handling chemical products, eating, smoking and using the lavatory and at the end of the working period. A techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safe are close to the workstation location.	Appropriate h
	Safety eyewear complying with an approved standard should be used when a assessment indicates this is necessary to avoid exposure to liquid splashes, m gases or dusts. If contact is possible, the following protection should be worn, the assessment indicates a higher degree of protection: safety glasses with sid shields.	nists, unless
Skin protection		
Hand protection:	Chemical-resistant, impervious gloves complying with an approved standard sh	nould be
Revision Date: 7 March 2018	Document Number: SDS-201-WQI-002 Rev.2	Page: 3 7

	worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection:	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

<u>Appearance</u>	
Physical state:	Liquid
Colour:	Colourless
Odour:	Odourless
Odour Threshold:	Not available
pH:	Not available
Melting Point:	Not available
Boiling Point:	100o C
Flash point:	[Product does not sustain combustion.]
Evaporation rate:	Not available
Flammability (solid, gas):	Not available
Lower and upper explosive	
(Flammable) limits:	Not available
Vapour pressure:	Not available
Vapour density:	Not available
Relative density:	Not available
Partition coefficient	
n- octanol/water:	Not available
Auto-ignition temperature:	Not available
Decomposition temperature:	Not available
Viscosity:	Not available

Section 10. Stability and reactivity

Reactivity:	No specific test data related to reactivity available for this product or its ingredients
Chemical stability:	The product is stable
Possibility of hazardous:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid:	No specific data
Incompatible materials:	No specific data
Hazardous decomposition: products	Under normal conditions of storage and use, hazardous decomposition products should be produced.

Section 11. Toxicological Information

Information on toxicological effects Acute toxicity: Not available			
Irritation/Corrosion: Sensitization:	Not available Not available		
Mutagenicity:	Not available		
Carcinogenicity:	Not available		
Reproductive toxicity:	Not available		
Teratogenicity:	Not available		
<u>Specific target organ</u> toxicity (single exposure):	Not available		
Specific target organ toxicity (repeated exposure):	Not available		
Aspiration hazard:	Not available		
Information on the likely routes of exposure:	Not available		
Potential acute health effects: Eye contact: Inhalation: Skin contact: Ingestion:	No known significant effects or critical hazards No known significant effects or critical hazards No known significant effects or critical hazards No known significant effects or critical hazards		
Symptoms related to the physic Eye contact: Inhalation: Skin contact: Ingestion:	al, chemical and toxicological characteristics No specific data. No specific data. No specific data. No specific data.		
Delayed and immediate effects and also chronic effects from short and long term exposure Short term exposure			
Potential immediate: effects	Not available		
Potential delayed effects:	Not available		
<u>Long term exposure</u> Potential immediate: Effects: Potential delayed effects:	Not available Not available		
Potential chronic health effects:	Not available		
General: Carcinogenicity: Mutagenicity: Teratogenicity: Developmental effects: Fertility effects: <u>Numerical measures of toxicity</u> <u>Acute toxicity estimates:</u>	No known significant effects or critical hazards No known significant effects or critical hazards		

Section 12. Ecological information

Toxicity:	Not available
Persistence/degradability:	Not available
Bio accumulative potential:	Not available
<u>Mobility in soil</u> Soil/water partition coefficient (K _{oc}):	Not available
Other adverse effects:	No known significant effects or critical hazards.
Osstian 40 Disesso	

Section 13. Disposal consideration

Disposal methods:

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers..

Section 14. Transport information

	UN	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.
Additional information	-	-	-

Special precautions for user:

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Section 15. Regulatory information

Safety, health and environme International Inventories:	ental regulations/legislation specific for the substance or mixture.
