

SAFETY DATA SHEET

Section 1. Product and Company Identification

| Product Name: | 525-686, 500-686, 560-686 (pH 6.86 buffer solution) |
|--------------------------|---|
| Product code: | 3999960019, 399996030, 3999960140 |
| Recommended use: | For laboratory and Industrial use |
| Manufacturer / Supplier: | Horiba Instruments (Singapore) Pte Ltd 83 Science Park Drive, #02-02A, The Curie Singapore-118258 Contact No: +65 69089600 |

Section 2. Hazard identification

Classification of the Substance or Mixture:

Mixture

The mixture is classified as not hazardous according to regulation (EC) 1272/2008, Globally Harmonized System (GHS)

| GHS Label elements: | |
|--|--|
| Signal word: Hazard statement: | No Signal word No Known significant effects or critical hazards |
| Precautionary statements: General: | Do not handle until all safety precautions have been read and understood |
| Other hazards which do not result in classification: | None known |

Section 3. Composition/ information on ingredients

Mixture

CAS Numbers other identifiers:

| Ingredients | CAS Number | Percentage |
|--------------------------------|------------|------------|
| Potassium Dihydrogen Phosphate | 7778-77-0 | <1% |
| Disodium Hydrogen Phosphate | 7558-79-4 | <1% |
| Water | 7732-18-5 | >98% |

This product contains <0.01% other ingredient, not required to be listed as it is not hazardous to health and environment.

The exact percentage of composition has been withheld as a trade secret

Chemical formula: Not applicable

Section 4. First Aid Measures

| Description of necessary first aid measures | | |
|---|--|--|
| Eye contact: | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove any contact lenses. Get medical attention if irritation occurs. | |
| Inhalation: | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. | |
| Skin contact: | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. | |
| Ingestion: | Clean mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. | |

Most important symptoms/effects, both acute and delayed

<u>Potential acute health effects:</u> No known significant effects or critical hazards Over-exposure signs/symptoms: No specific data available

Indication of immediate medical attention and special treatment needed, if necessary Notes to physician: Treat symptomatically. Contact poison treatment specialist

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See toxicological information (Section 11)

Section 5. Firefighting Measures

Extinguishing Media

| Suitable extinguishing media: Unsuitable extinguishing | Use an extinguishing agent suitable for the surrounding fire. |
|---|---|
| media: Specific hazards arising | None Known. |
| From the chemical: | In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products: | No Specific data |
| Special protective actions for Fire-fighters: | Promptly isolate the scene by removing all persons from the incident if there is fire. No action shall be taken involving any personal risk or without suitable training |
| Special protective equipment for fire-fighters: | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release Measures

Personal precautions, protective equipment and emergency procedures

emergency personnel"

For non-emergency personnel: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material
 For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in section 8 on suitable and unsuitable materials. See also the information in "For non-

| Environmental precautions: | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, water ways, soil and air | |
|---|---|--|
| Methods and material for containment and cleaning up: | | |
| | | |

Method for Containment: Prevent further leakage or spillage if safe to do so.

Methods of cleaning up: Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.

Section 7. Handling and storage

| Precautions for safe handling Protective measures: | Put on appropriate personal protective equipment (see Section 8). |
|--|---|
| Advice on general occupational hygiene: | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. |
| Conditions for safe storage, including any incompatibilities: | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. |

Section 8. Exposure controls/personal protection

| Control parameters | | |
|---|--|-------------------|
| Occupational exposure limits: | None | |
| | Good general ventilation should be sufficient to control worker exposure to airb contaminants. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation in some cases, fume scrubbers, filters or engineering modifications to the process. | on. |
| Individual protection measures Hygiene measures: | equipment will be necessary to reduce emissions to acceptable levels. Wash hands, forearms and face thoroughly after handling chemical products, b eating, smoking and using the lavatory and at the end of the working period. Ap techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety are close to the workstation location. | propriate |
| Eye/face protection: | Safety eyewear complying with an approved standard should be used when a ria assessment indicates this is necessary to avoid exposure to liquid splashes, mis gases or dusts. If contact is possible, the following protection should be worn, un the assessment indicates a higher degree of protection: safety glasses with side shields. | sts, nless |
| Skin protection Hand protection: | Chemical-resistant, impervious gloves complying with an approved standard sho worn at all times when handling chemical products if a risk assessment indicates necessary. | |
| Body protection: | Personal protective equipment for the body should be selected based on the tas | k |
| Revision Date: 28 Feb 2018 | Document Number: SDS-201-WQI-007 Rev.2 | Page 3 7 |

handling this product.Other skin protection:Appropriate footwear and any additional skin protection measures should be selected
based on the task being performed and the risks involved and shouldbe approved by
a specialist before handling this product.Respiratory protection:Based on the hazard and potential for exposure, select a respirator that meets the
appropriate standard or certification. Respirators must be used according to a
respiratory protection program to ensure proper fitting, training, and other important
aspects of use.

being performed and the risks involved and should be approved by a specialist before

Section 9. Physical and chemical properties

| Appearance | |
|----------------------------|--|
| Physical state: | Liquid |
| Colour: | Colourless |
| Odour: | Odourless |
| Odour Threshold: | Not available |
| pH: | 6.86 |
| Melting Point: | Not available |
| Boiling Point: | 100° C |
| Flash point: | [Product does not sustain combustion.] |
| Evaporation rate: | Not available |
| Flammability (solid, gas): | Not available |
| Lower and upper explosive | |
| (Flammable) limits: | Not available |
| Vapour pressure: | Not available |
| Vapour density: | Not available |
| Relative density: | Not available |
| Partition coefficient | |
| n- octanol/water: | Not available |
| Auto-ignition temperature: | Not available |
| Decomposition temperature: | Not available |
| Viscosity: | Not available |

Section 10. Stability and reactivity

| Reactivity: | No specific test data related to reactivity available for this product or its ingredients |
|--------------------------------------|---|
| Chemical stability: | The product is stable |
| Possibility of hazardous reactions: | Hazardous reactions or instability may occur under certain conditions of storage or use |
| Conditions to avoid: | No specific data |
| Incompatible materials: | No specific data |
| Hazardous decomposition Products: | Under normal conditions of storage and use, hazardous decomposition products should be produced |

Section 11. Toxicological Information

| Information on toxicological effe | <u>ects</u> Not available |
|-----------------------------------|------------------------------|
| Irritation/Corrosion: | Not available |

| Sensitization: | Not available |
|---|--|
| Mutagenicity: | Not available |
| Carcinogenicity: | Not available |
| Reproductive toxicity: | Not available |
| Torotogonicity: | Not available |
| Teratogenicity: | Not available |
| Specific target organ toxicity (single exposure): | Not available |
| Specific target organ: | |
| toxicity (repeated exposure): | Not available |
| Aspiration hazard: | Not available |
| Information on the likely: routes of exposure | Not available |
| Potential acute effects: | |
| Eye contact: | No known significant effects or critical hazards |
| Inhalation: | No known significant effects or critical hazards |
| Skin contact: | No known significant effects or critical hazards |
| Ingestion: | No known significant effects or critical hazards |
| Symptoms related to the physic | al, chemical and toxicological characteristics |
| Eye contact: | No specific data. |
| Inhalation: | No specific data. |
| Skin contact: | No specific data. |
| Ingestion: | No specific data. |
| Delayed and immediate effects | and also chronic effects from short and long term exposure |
| Short term exposure | · · · · · · |
| Potential immediate: | |

Section 13. Disposal consideration

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

| | UN | IMDG | ΙΑΤΑ |
|----------------------------|----------------|----------------|----------------|
| UN number | Not regulated. | Not regulated. | Not regulated. |
| UN proper shipping name | - | - | - |
| Transport hazard class(es) | - | - | - |
| Packing group | - | - | - |
| Environmental hazards | No. | No. | No. |
| Additional information | - | - | - |

Special precautions for user:

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Section 15. Regulatory information

| Safety, health and environmental regulations/legislation specific for the substance or mixture. |
